Getting Started

Introduction to Damstra Insight

Damstra Insights is a modern and sophisticated visualisation tool and will provide you with enhanced capabilities and actionable insights to reduce risk and increase protection towards a zero-fatality worksite world.

With Damstra Insights, you can access a library of dashboards and a visual gallery where you can choose from a large variety of visuals to display your data including word clouds, doughnuts, bar charts, packed bubbles, and more.

Home page

After Logging into Damstra Insights the 'Library' will display. From here, you can explore and interact with your Damstra Insights environment, including its visuals and dashboards, in a variety of ways.

Category	Description
Visual Gallery	Shows the number of visuals defined in your environment. Select this box to manage visuals in the Visual Gallery.
Library	Shows the number of dashboards defined in your dashboard library. Select this Dashboards box to manage dashboards.

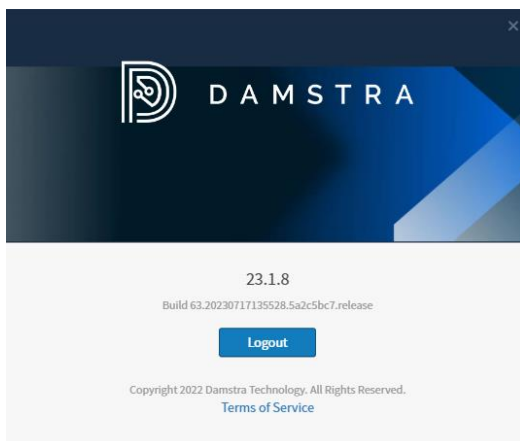

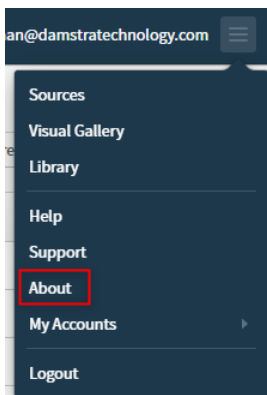

The screenshot displays the 'Visuals' gallery in the Damstra application. The top navigation bar includes the 'DAMSTRA' logo, a 'Sources' dropdown, and the 'Visual Gallery' tab, which is highlighted with a red arrow. The main content area shows a list of visualizations with the following columns: Fav, Type, Name, Data Source, Author, Modified Date, and Actions. The list contains 20 items, all created by 'supervisor' on 'Nov 28, 2022 9:58 AM'. The visualizations include various charts and filters related to 'Safety - Asset Register' and 'Safety - Causal Analysis Register'.

Fav	Type	Name	Data Source	Author	Modified Date	Actions
☆	📊	Safety - Asset Register Allocation Count	Safety - Asset Register	supervisor	Nov 28, 2022 9:58 AM	🗑️
